Description Of Work:	Kimball was one of several companies who provided estimates for a complete tear-off and replacement of the roof on my Salt Lake City home and garage. They were very responsive to requests for		

Member Comments:

additional detail and modified estimates. I was impressed by their professionalism, level of expertise and the suggestions they offered. Unfortunately we chose a different company for the work, the deciding factor being because of a lower bid. However, this didn't actually save us money, because the company doing the work charged us extra for tear off of a layer they did not detect in the bidding process. Because Kimball's bid was fixed, we would have saved actually saved money by using them. If I had it to do over again, I definitely would choose Kimball instead.

Description Of Work:	Kimball provided an estimate for my roof.	Professionalism	A
Member Comments:	They showed up when they said they would, and were very professional. I "shortlisted" them ,but ultimately chose a less expensive competitor. I would consider them if needed in the future.

Description Of Work:	Kimball's crew stripped and replaced a roof that had several leaks. They replaced a number of sections of the decking and put in a roof vent. Work was well done, on time, and clean-up was complete. Came in right on estimate, which was considerably lower than the other two companies contacted.		
Member Comments:	Hey, it's a roof. it no longer leaks. End of story.

Member Comments:	Had a complete re-roof on a 2 building Condo Complex. Replaced 12 year old asphalt roof with commercial-grade TPO membrane roof. The TPO roof came with a 20 year warrenty. We also had the rain gutters done. Everthing went well. Good Communication. Great Price. They did start a day later than expected, but no big deal. The gutters did leak a little, but they came back promptly and fixed them for free.
